

Making an Impact

“

10th grade students who participated in the Hope for Youth & Families program actually gained 5 points more in ELA and 3+ points more in Math on their NWEA MAP, than students who didn't participate in summer programs.

Our Mission

To help youth and families in underserved communities achieve their full potential.

Our Programs

Our programs aim to fill gaps in services for middle and high school students by collaborating with existing youth programs and by creating new, innovative programs that apply entrepreneurial thinking, leverage internal and external funding, and are driven by a desire to see youth and families realize their full potential.

After-School Enrichment

We provide students with the opportunity to explore new interests, develop new skills and expand their knowledge beyond the classroom by delivering clubs directly at their schools.

Summer Sports & Enrichment

Our evidence-based and holistic summer program infuses FUN, positive relationships and hands-on experiences into academic programming to increase summer learning results.
